ASSAULT AND BATTERY

Is the Charge Mrs. Coulson Must Answer.

FIVE HUNDRED DOLLARS BOND

Asked by the Mayor This Morning After She Had Denied Her Guilt—Mrs. Mackey is a Little Better, Although Very Sore. Danger of Death Decreasing.

What promised yesterday to develop into a murder case, decked out with all the trimmings of a sensational family fight, has dwindled today to the meagre proportions of an assault and battery charge, to which Mrs. Coulson denied her guilt this morning.

The woman was arraigned before Mayor Gilbert, and was asked if she would plead guilty to the charge of assault and battery and promptly denied that she knew anything about the case or had anything to do with the assault on Mrs. Mackey. Her demeanor was defiant, and she seemed confident that she had the right side of the case. She reiterated her statement that she was innocent and looked somewhat surprised when the mayor asked if she could give bond for \$500 to appear at a hearing, the date of which had not been set. Mrs. Coulson didn't have the amount in her dress pocket, and none of her wealthy friends were there to vouch for her, so with all her claims of innocence she was sent back to jail, where she will stay until the bond appears or she comes forth to the hearing.

Inquiry at the residence of Mrs. Mackey developed that the patient was somewhat better today, and feeling better. She is still very sore and the blow near the temple is causing her some concern, while the bruise on the shoulder is decidedly painful. The symptoms, however, are for the best, and her friends believe that she will soon recover. Mrs. Mackey's friends believe that she only escaped death by a miracle, and one neighbor was heard to express the belief that she had a very narrow escape. Doctor Taylor stated this afternoon that he now considered Mrs. Mackey out of danger although she was not well. A severe hemorrhage removed all the clotted blood this morning, and danger from that source is at an end. Mrs. Mackey will be ill for several days, but she will gradually regain her strength, and will soon be able to appear at the hearing, if her evidence is needed.

There have been no more arrests in connection with the assault of Mrs. Mackey, although it was rumored yesterday that Mrs. Coulson's daughter would be brought into the matter as a defendant. At a late hour this afternoon Mrs. Coulson had not given Mayor Gilbert the required bail, and the time for the hearing had not been set.

ALL THINGS ARE READY.

The Flag Raising Will Come Off Without a Hitch.

The committee having in charge the flag raising at Central school building say that all things are ready for tomorrow, and every little detail so far as they are able to see has been arranged. This report was made at the meeting last night, and until tomorrow morning the committee will rest. Early on Friday a force of men from the different orders will begin the erection of a platform for the speakers and bands and will have it finished at noon. Professor Gotschall will have charge of the singing of patriotic airs, and the people are invited to join their voices until the Virginia hills will send back the echo. W. V. Blake will marshal the citizen's club, and every man in Liverpool who is not connected with a patriotic order is invited to turn out, reporting at the rink at 12:30, and forming in line as Mr. Blake directs. Secretary Morris, of the Young Men's Christian association, has extended an invitation to visitors through the committee to make themselves at home in the rooms. The committee asks that all people along the route see to decorations, and they want Old Glory to fly everywhere. In connection with the program as published in the NEWS REVIEW yesterday, the Sons of Veterans will fire a salute as the handsome new flag goes bounding toward the top of the pole. Let everyone turn out, and swell the throng.

TO ORGANIZE THE CLERKS.

A Movement Is Started In Trades Council.

At the meeting of Trades council last night all the bills of the celebration were ordered paid, and the request of some business men for a resolution sanctioning the early closing movement was laid on the table, council not desiring to move in that direction because it was looked upon as none of its affair. A movement to organize the clerks of the city was set on foot, however, and the district organizer of the Federation, together with the committee, will soon have it under way. The bill of a local paper asking payment for the publication of matter it had published as news was referred to a committee, and the endorsement of the People was withdrawn.

about it. But now the main parish priest of Neisse has forbidden the potters to join in a big church procession unless they put some clothes on Adam and Eve. The potters refused to supply the apparel, and when the day of the procession came they were shut out. Hence a row; hence the ancient banner was torn in the free fight that followed; hence the potters of Neisse have sued the priest for damages. It will make an interesting case.—Berlin letter to the Chicago Record.

POSTPONED THE SPORTS.

Field Day Will Not Take Place Until Monday.

The rain of last evening was too much for the East End track, and the Young Men's Christian association sports are postponed until Monday of next week. There was a large list of entries, and the athletes were anxiously waiting for the time when a start would be made, but Mr. Conkey, Secretary Morris and the directors held a meeting this afternoon and decided to postpone it. The track was unfit for wheelmen to ride, and the contestants in other events would have been severely handicapped by the condition of the grounds. If Monday is fine, a large crowd will be present. Among the out of town people who were here to contest are W. A. Rodgers, Martin's Ferry; Mr. Ingleton, Claysville; Messrs. Wintzinger and O'Neil, of Steubenville.

SUED ON A NOTE.

The First National After Some Money—A Divorce.

Special to the NEWS REVIEW.

LISBON, Sept. 5.—The First National bank, of East Liverpool, began action today seeking to recover \$800 on a note which is signed by A. C. Bradshaw and endorsed by E. B. Bradshaw. The note was made last April, and was presented in due time for payment but that was refused, and the note went to protest. The banks wants the amount of the note, interest and protesting fees.

The only other case on record here today is that of Mrs. Lorena Anglemeyer who seeks a divorce from her husband on the customary grounds of drunkenness and desertion. She claims they were married 14 years ago, and have had two children, the custody of whom she desires.

AFTER SATISFACTION.

The Girl Was From Wellsville and Didn't Care Who Knew It.

A number of people were attracted to a prominent corner in the business part of the city the other evening by the words which fell from the lips of a well dressed young girl, who was earnestly engaged in conversation with a Liverpool boy who is known somewhat in society. She was telling him in words which could not be mistaken that there would have to be a marriage ceremony very soon at her home in Wellsville, and he would be present as the loving groom, for her father had heard certain stories, and as he was a good workman, he might decide to do some shooting. The girl was laboring under great excitement, and the young man found it convenient to say that he would be around.

FOUGHT FOR HIS SISTER.

Two Boys Did Battle Because One Was Profane.

The fiercest fight seen on the hill for many months occurred yesterday afternoon. A lad whose name could not be learned spoke slightly of another boy's sister, and in a few minutes a challenge to fight had been sent and accepted, and the youngsters were at it. They punched and fought for almost half an hour, one being scratched on the face and the other being bit in the arm. So much attention did the fight attract that the janitor at the Grant street school attempted to stop it and was buffeted around by the boys for several minutes before the battle was stopped.

THEY MUST BE CLOTHED.

Adam and Eve are represented on the banner of the potters' organization in Neisse, Silesia, just as they looked before they fell from grace. The potters of Neisse have been carrying this banner, which is a work of art in its delicate silk and gold embroidery, for 200 years or more, and nothing has been said

A WIFE IS EXPENSIVE

Particularly When the Husband Whips Her.

MAYOR GILBERT HAS JUSTICE

At His Court, and He Never Likes To Dispense It Better Than When He Gets a Wife Beater—Charles Coulson Arrested On An Old Charge, But It Had Been Settled.

Bert Allison was surprised beyond measure last night when Officer Earle quietly approached him with the remark that he must go to the city hall and answer a charge left there by his wife several days ago. It seems that Allison and the partner of his joys, and what few sorrows they could find by the wayside, had a disagreement the other evening, and Allison exercised what he believed was his right as a husband. The row which resulted caused so much commotion that Mrs. Allison placed the matter in the hands of the police and swore out a warrant for the arrest of this man whom she had promised to love and obey. When confronted by the facts as they appeared to the mayor, Allison acknowledged that he believed something of that sort had happened, and handed over the \$9.60 which his majesty believed would heal the breach in the law.

The patrol was called to the foot of Union street last evening a few minutes before seven, but when it arrived on the scene the bird had taken its departure. A man had entered Stoffel's saloon and made himself so obnoxious that the proprietor could not longer endure his presence, and had sent in the alarm. The intoxicated one dropped to the game, and seeking the door ran down the track with such speed as to be soon lost to view and thought.

On the evening of August 8, Charles Coulson, whose reputation is known to the police, became involved in an altercation on Franklin avenue with someone, and one of those little slips of paper so cordially hated by breakers of the law and so precious in the sight of the police was given to Officer Jennings. When he attempted to serve the thing he found that Charles had already anticipated the action and had gone to a town where he could walk the streets without danger of arrest. The officer was disappointed, for he wanted another scalp to hang at his belt, but he stored the warrant in the depths of his inside pocket, well knowing that Charles could not always stay away, and he was right. A few days ago the fugitive, thinking the little incident had blown over, returned to town, but his friends managed to keep him out of the way of the officer until last evening, when he met him face to face and informed the youth that he was wanted at city hall. He unwillingly went, after making the assertion that there was no charge against him, and he was right. His mother had called soon after the affair, and promised to pay his fine, but the warrant had never been recalled. The officer simply did his duty in serving the paper.

THE GIRL WAS FROM WELLSVILLE AND DIDN'T CARE WHO KNEW IT.

There has been a gigantic objection about the Diamond for several days, and regular patrons of the well are figuratively using their heels with the ferocity of indignation. The well does not do its duty in the morning. People going to the well before noon find that no water comes forth, and it is as dry as some of the sermons delivered by the holiness people so close to it in the evenings. They want to know why this is, and if there is neglect, why some arrangement is not made to conquer it.

A COMPLIMENT.

The Fire Department Do Good Work According to an Insurance Man.

Walter P. Dickerson, who has been adjusting the loss on the plant of the East Liverpool pottery, left for his home in Cincinnati today, and Mr. Eggleston went away last night. The loss it was decided reached a little over \$8,000, and the work of repairing the damage will begin at once. Mr. Dickerson paid a high compliment to the fire department for the very efficient work they did at the fire, and remarked that the city should be proud of the boys and their ability.

A GOOD CATCH.

A Black Bass That Did Not Know A Good Thing.

When well known young man and his best girl were boating on the river on Tuesday evening, black bass became weary of life in the water, and jumping high in the air dropped into the boat. It floundered about for a time, and was finally captured and killed. It weighed over two pounds, and was as toothsome a fish as ever came out of the Ohio. The actions of the poor fish in the boat were desperate, but it could not jump over the side.

THE WOMEN IN IT.

Ministerial Representation for Them to be Fought.

The Methodist Protestant conference at present in session at the First church in Allegheny will consume a week in their work before going home, and matters of importance are being

considered. The most important subject is woman's rights in the church.

At the last general conference women were given the right of ministerial representation. Objections were filed from this district, and it was left to the district conference to fight it out. They are to instruct delegates to the Kansas city meeting, which will settle the matter for all time. Reverend Seiby, of the Wellsville church, resigned, and will take a Pittsburg church.

Ardent Republican Wants a Club in the City.

EDITORIAL NEWS REVIEW—Success to those interested in organization of a Republican club as mentioned in your issue of last evening. Let every loyal Republican rally to their support and make an effective organization for promulgating Republican principles and whose influence will be felt at home and abroad. The campaign will soon open and the enemy will be after us. Vanquish him we must and will. Yours for another 140,000 majority, Bushnell as Governor, Foraker as Senator and McKinley as President.

MORE RAIN.

A Spell of Weather Is Heading In This Direction.

The weather men say that a spell of rainy weather is headed this way from the west, and there may be enough water the next week to raise the river so that boats can travel, and the millions of tons of coal in Pittsburgh harbor can move southward. It will require at least three inches of rain fall before the boats can move south with safety, and only constant rain for more hours than usually falls to the lot of this valley could produce that result. The rain last night is thought to be the forerunner of numerous heavy showers.

RECOVERED THE HORSE.

Chief Gill Was Working On the Case.

A few nights ago a horse was stolen from a stable in New Brighton, and the authorities here were notified, as the thief was thought to have come this way. Chief Gill took the case in hand, and with that energy that has made him one of the best officers of the valley, soon located the animal at a gypsy camp near Vanport, where it had been traded by the thief. One of the owners accompanied the chief to the place last night, and they found that the other owner had recovered the animal not 10 minutes before.

A BIG SALE.

The Duffs Have Parted With Their Oil Interests Over the River.

The Duffs, who have long been known as largely interested in oil territory over the river, have parted with their possessions, and will seek pastures new. The sale involves property amounting to the near neighborhood of \$50,000, and includes some good producing wells. Ohio parties have made the purchase, and it was rumored that Liverpool people were more or less interested, but that part of the story is denied by those who were said to be the heaviest buyers.

Anticipating a big business because of the sports in the East End, Superintendent Andrews had a force of conductors on the cars. When it became known that the sports had been postponed the conductors were withdrawn.

CHASTISED HIS CHILD

Sidney Starkey Gave His Son a Thrashing.

HIS NEIGHBORS COMPLAINED

Then the Humane Society Stepped In and Showed Its Authority By Arresting Him As He Left His Work and Taking Him Before Squire Morley, Where He Plead Guilty.

The Humane society has done some good since it began work in the city, having sensibly reduced the number of broken down horses turned loose on the streets, and on more than one occasion compelled teamsters to obey the law as it is set down in the statutes of the state; but yesterday it took another course, and the first time since its formation succeeded in convicting a father for thrashing his child.

A few days ago Sidney Starkey, a jiggerman at the Knowles pottery and a resident of Third street, imagined that his son was not walking in the straight and narrow way, and believing that it was the province of the parent to exercise his authority at these times, gave the boy a thrashing. Certain of his friends and neighbors knew of the happening, and thinking that Starkey had exceeded his authority as a parent because of the severe beating he gave the boy, placed the case in the hands of Agent Thomas Lloyd, who at once began the collection of evidence. The society had frequently been called in to test cases of this kind, but all had been abandoned because there was no evidence to convict. This time, however, there was no mistaking the quality of the facts at hand, and giving Starkey an opportunity to complete his work for the day, Agent Lloyd made it his business to be present when workmen at the Knowles plant ceased their labors. Starkey was surprised when informed that he must go to the court of Squire Morley, but he quietly obeyed the summons, and plead guilty to the charge. He was fined \$14.60, and then allowed to go. It is the first conviction of this sort the society has had.

A LOCAL paper will learn the necessity for good English when it discovers some day that the term "burst" is not a word at all.

The syndicate whose members have promised to keep the gold reserve intact are keeping their word, but watch for the toboggan after Oct. 1, when the contract expires.

The novelty of a Democrat attempting to operate a labor paper under a Populist cloak will, in view of the awful overhauling Coxey got last year, be interesting in the extreme.

A BOLD BLUFF.

Mr. Campbell, of Hamilton, the hired man of the Democracy, as he has been playfully yet truthfully styled, will undoubtedly depend upon the shining gold of Mr. Brice for the means of boosting him into power; but with the nerve for which he is noted he will attempt to make some show at a canvass by fighting on state issues. This pride of Democracy, this paragon of political trickery, can not find in national issues anything upon which to base his claim for consideration. If he touches upon the financial question the public will laugh him to scorn for the awful straddle he made at Springfield, and if he should dip into the mysteries of the Wilson bill he will be the target for the darts of truth, and toughened though he is by many a hard fought campaign, they would hurt. So Campbell will fight on state issues, and Brice will spend his money on one issue—that of electing Brice—while the people will go to the polls and vote for Bushnell, as they ought to do.

A PRACTICAL ILLUSTRATION.

The Democratic press, filled with fear that the tariff will be the issue in the coming campaign, is making all sorts of statements about how their legislation is improving the condition of the country and, as usual, pointing with pride to their work as the cause of returning prosperity. But they count upon the credulity of a people who have been learning lessons in that dear old school of experience, and who are even now only putting the finishing touches on their education. The iron worker who does not receive the wages of three years ago in spite of reported increases and all these beautiful stories which the Democrat tells, will be a hard man to convince of the efficiency of tariff reform as an increaser of wages. The potter, who receives less for his labor and skill than he ever received before, will only laugh at the Democrat who attempts to show him the advantage of Wilson's wage destroyer. There are whole armfuls of facts to stand against the theoretical nonsense of the reformers, and the best part of the argument is found in the experience of the past few years. Democracy would like to bury the tariff as an issue forever; but fortunately for America the Democracy can not always have its way.

A FRIEND OF MISSIONS.

Li Hung Chang Issues Proclamation In Their Behalf.

HE PRAISES THE MISSIONARIES.

Declares That the Chinese Must Not Molest Them—Their Work For the Good of the People—Letter From a Missionary In Nanking.

NEW YORK, Sept. 5.—Robert E. Speer, secretary of the board of foreign missions of the Presbyterian church in the United States, has received a letter from Rev. I. W. Houston of Nanking, China. The letter contains a copy of the proclamation issued by Li Hung Chang, the viceroy, which not only requires the Chinese to refrain from molesting missionaries, but speaks in terms of praise of the work done by them.

Mr. Speer says that the proclamation illustrates the folly of forming judgment of the whole of China from conditions existing in one section, and it is the more significant because Nanking has always been a more or less turbulent center. The following is the letter:

"In Sze-Chuan, 2,000 miles to the west, wholesale destruction of mission property has taken place; here we are sought after by the officials. Three weeks ago our district magistrate invited all the men of our mission community to dinner, treating them with all honor, and now comes, unsolicited, one of the best proclamations which has been issued in China since the eve of modern mission. The translation is as follows:

"Given by Li, by grace of the emperor, commissioner of salt revenue, expectant intendant of circuit and prefect of the Jaing Ning (Nanking) circuit, being advanced three steps in office and having one brevet rank, having 13 times honorable mention in official records.

"For the purpose of publicly and straitly charging the people concerning foreigners, who have in whatsoever points of the interior established chapels, schools or like places. For a long time these have been permitted by the emperor's commands. Now, having examined the doctrine halls in every place pertaining to this prefecture, we find that there have been established free schools where the poor children of China may receive instructions; hospitals where Chinamen may readily receive healing; that the missionaries all are really good; not only do they not take the people's possessions, but they do not seem to desire men's praise.

"Already the prefect, with the magistrates of the provincial capital, has personally visited each hall and has commanded the magistrates of outside districts to personally visit each out station of the churches and talk with the missionaries. They have personally observed the hospitals, schoolhouses, etc. They are for good, established with the sincere desire to save men. Although Chinamen are pleased to do good, there are none who excel these (missionaries).

"We think it right, therefore, to put forth this proclamation, plainly charging soldiers and all people. Be it known that foreigners here renting or otherwise setting up halls to do so to save and to help the poor, and that there is not the least under-handedness. Let it not be that you, on the contrary, wrongly invent false reports and even commit crimes and misdemeanors. If there should be shameless villains who, thinking to fish for wealth, etc.: Take by violence, invent reports and create disturbances, falsely accusing (the missionaries) of offenses they will first be thoroughly examined, then strictly dealt with. They will be punished to the fullest measure, certainly not leniently. You have been informed and warned. Do not disregard this proclamation."

SUMNER PLEADS GUILTY.

The Captain of the Cruiser Columbia Being Courtmartialed at Brooklyn.

BROOKLYN, Sept. 5.—The trial by court-martial of Captain George W. Sumner of the United States cruiser Columbia, on charges growing out of the investigation just concluded regarding the injuries sustained by the vessel at the Southampton drydock, in July last, is being held at the Brooklyn navyyard.

The charges embrace three counts—first, criminal negligence and inefficiency while on duty; second, suffering a vessel of the navy to be hazarded according to clause 11, article 8, of the articles regulating the navy, and third, neglect of duty.

As Captain Sumner has pleaded guilty to the charges preferred, it is expected that the trial will be brief.

THE OHIO WOOLGROWERS.

They Want the Fifty-fourth Congress to Restore the Wool Tariff.

COLUMBUS, Sept. 5.—The Ohio Wool-growers' association has adopted a resolution to the effect that the free wool is causing heavy loss to the farmers and urging all woolgrowers, farmers and others interested in wool protection to petition the Fifty-fourth congress to pass legislation favorable to such interests.

Judge Lawrence announced he would call a meeting of the National Wool-growers' association at Washington after congress assembles to inaugurate a movement to have the tariff on wool restored.

Baseball Stranded In London.

LONDON, Sept. 5.—According to the statement of N. P. Cook, secretary of the London Baseball association, the English tour of the Boston amateur baseball club has come to a disastrous end, and several members of the team are stranded in London. Contrary to previous reports, there has been no interest in the game of baseball anywhere in England.

Sued by a Priest.

SCRANTON, Pa., Sept. 5.—A new phrase of the war for the possession of the Greek Catholic church at Old Forge developed when Rev. Valentine Balogh, the accredited pastor of the church, began an action in slander to recover \$5,000 damages from Kast Rubin for alleged defamation of character.

IOWA'S ARMOR IMPREGNABLE.

Successful Tests Made on an Actual Reconstruction of the Battleship's Side.

WASHINGTON, Sept. 5.—The new battleship Iowa will withstand the projectiles of the best 12-inch gun afloat. This is the conclusion drawn from one of the most important tests ever made at the government proving ground at Indian Head. Since the equipment of modern battleships with heavy armor there has been, in naval quarters, a question as to whether the frame work of ships so armored could resist the crushing force of a blow from one of the big guns, even though the armor itself was capable of keeping the projectile out. Hitherto all tests of armor have been made against an unyielding wooden butt.

The United States, for the first time since the use of modern guns and modern armor, has begun experiments to determine the actual strain and injury to which a battleship would be subjected if struck by a projectile. For that purpose a side armor plate of the battleship Iowa, now building at the Cramp's yards in Philadelphia, was fitted up as an actual reproduction of a section of the ship. It withstood shots from 12-inch and 10-inch guns, one shot being with a Wheeling Sterling shell.

SALISBURY WARNS TURKEY.

Armenian Reforms Must Be Adopted or Trouble Will Result.

CONSTANTINOPLE, Sept. 5.—It is officially announced here that Rustem Pasha, Turkish ambassador to England, has telegraphed to the foreign minister that he has had an interview relative to the Armenian question with Lord Salisbury, whom he had assured that the sublime porte is not opposed to the reforms proposed by the powers, but that Turkey could not permit control of Armenia by an international commission.

Lord Salisbury replied that under the circumstances it would be useless to continue the interview. If, he said, the porte backs down in its refusal, the powers will undertake the suggested reforms and rest satisfied. If, however, the porte continues to resist, it would be a signal for trouble.

THE TENNESSEE STORM.

Wrecked Buildings and Did Great Damage at Huntingdon.

NASHVILLE, Sept. 5.—The storm at Huntingdon was the severest in its history. Its course was northwest, and it was accompanied by torrents of rain. The Nashville, Chattanooga and St. Louis railway depot was completely wrecked, with the exception of the telegraph office, in which several persons were seated. The debris from the freight department fell in such a direction as to protect it. The roof was blown from the main Southern Normal university building.

On the public square, the large brick storerooms occupied by W. H. Carter, grocer; Head & Sons, drygoods; Kern & Lusk, drygoods, and Scott & Bowles, clothing, were unroofed, and their stocks damaged. The front of Henry's jewelry store was blown down. The public square is almost impassable on account of the lumber and debris. The damage amounts to several thousand dollars. No lives were lost.

Minister on Trial For Wife Murder.

DANVILLE, Ind., Sept. 5.—The jury for the trial of the Rev. William E. Henshaw, the young Methodist minister, who is charged with the murder of his wife, Theresa, last January, is being selected here. The trial promises to be one of the most sensational cases held in Central Indiana. Henshaw was holding protracted meetings at the time the crime was committed, and claims that his wife was the victim of robbers. Henshaw also received 17 stab wounds and two gunshots. He was arrested several weeks after his wife's death.

The Heavy Rain at Indianapolis.

INDIANAPOLIS, Sept. 5.—The losses by the flood will, it is estimated, amount to at least \$100,000. This, however, does not include the damage to public works, which will also be heavy. The chief damage was done in the wake of Pogue's run, which stream could not carry off the water, and in consequence the cellars and basements were filled. The rainfall was the severest in ten years, and is the heaviest ever recorded in Indiana.

No Bannocks In Confinement.

ST. PETERSBURG, Sept. 5.—The department of justice has notified the Indian Bureau that there are no Bannock Indians in confinement at Marysville, Wyo., those arrested and imprisoned by the state authorities for violation of game laws having been allowed to escape. The district attorney for Wyoming is therefore unable to ask for writs of habeas corpus in their behalf, and the Japanese will grant no quarter and spare neither women nor children.

New Hill Seminary Dedicated.

ST. PAUL, Sept. 5.—The new Hill seminary has been dedicated by Mgr. Satolli. The large buildings of the new seminary, built by a \$300,000 cash gift from President J. J. Hill of the Great Northern railway, are located on the banks of the Mississippi on the western edge of this city.

The Kaiser Is Very Sensitive.

BERLIN, Sept. 5.—Herr Pfund, editor of The Vorwärts, has been arrested and two editions of his paper have been confiscated by the government, upon the ground that the paper contained articles insulting to Emperor William.

Farragher Won the Fight.

WHEELING, Sept. 5.—Mike Farragher of Youngstown knocked out Jimmy Gallagher of Pittsburgh in the twenty-fifth round in their fight here.

WHY WETTER NEGLECTED WALLER.

The Ex-Consul Oppose His Attempt to Railroad an American In Jail.

WASHINGTON, Sept. 5.—A spice of interest is to be added to the Waller case by an investigation by the state department of Consul Wetter, who was Waller's successor and is the present consul at Tamatave, Madagascar. This investigation is the result of charges made by Charles T. Lyons, a resident of Brooklyn, who was temporarily in Madagascar on business last September.

Mr. Lyons went to the island as the agent of a Boston firm of exporters and, it is alleged, incurred the enmity of Wetter through the fact that in taking the place there he necessarily ousted a man who was a personal friend of Wetter's. Wetter had Lyons arrested on the charge of opening mail addressed by the consul to the governor of one of the provinces of Madagascar, and at his trial insisted upon sitting as Lyons' judge, as well as acting as prosecutor. Lyons became so convinced that he was doomed to imprisonment through this process that he forfeited his bail and left the island before the trial terminated.

The investigation will bear directly on the Waller case. Waller and his stepson, Paul Bray, sat with Wetter as members of the court and it appears that themselves gained the ill-will of Wetter because they resisted what they conceived to be Wetter's desire unduly to punish Lyons. This was one of the questions touched upon by Waller in one of the letters to his wife, which were intercepted by the French authorities, and this fact, it is asserted, accounts for Wetter's alleged supineness in defending Waller's rights.

TOWER TOPPLES OVER.

Fatal Building Accident at Springfield, Ills., Fairgrounds.

TWO KILLED, A NUMBER INJURED.

A Hard Rain Is Thought to Have Loosened the Mortar, Which Caused the Disaster—Five Workmen Asphyxiated by Gas at Providence R. I.

SPRINGFIELD, Ills., Sept. 5.—The west tower on the great machinery hall at the state fairgrounds, which was being roofed, has collapsed and fallen in, burying several men beneath its ruins. Charles Hobson of Lincoln and James Park of this city, both plumbers, who were at work on the ground floor, were killed. They were covered with several tons of brick and mortar.

The injured are: Fred Berd, a carpenter, badly mashed; N. Williamson, a carpenter, both ankles broken; Samuel Davenport of Chicago, boss carpenter, badly injured about the back by falling debris; John Gethard, a carpenter, large gash cut in his head, will probably recover; Charles Brownell, water carrier, both legs and both arms broken, also badly burned by mortar and fearfully lacerated, will die.

Neither building nor tower was braced, but whether this caused the accident is not known. It is the general opinion that the hard rain loosened the mortar which had not time to dry, work having been rushed on the building in order to have it completed in time for the fair, and this caused the accident. The loss will amount to several thousand dollars.

James Clancy, a stoker, fell from the roof into a motor bed, striking on his head, but escaped with a few bruises. All the imprisoned men had been gotten out. Several were uninjured.

DEATH BY ASPHYXIATION.

Five Workmen Killed in a Cellar at Providence, R. I.

PROVIDENCE, R. I., Sept. 5.—Five employees of the Providence Gas company have been killed in the cellar of the Westfield Street gas holder, asphyxiated by gas being the cause.

The names of the dead are: Cotton, 26 years of age, single, Bird street; Riley, 45, married with six children, Thornton pike; McManus, married, Borden and Mary streets; Burns, 19, East Providence, and McNamee, 36, single, Brook street.

HOME OF LINCOLN TO BE REBUILT.

LAWRENCEBURG, Ky., Sept. 5.—Lincoln Park, in Larue county, is to be made one of the most historic places in the south. Mr. A. W. Bennett, the owner, has wired Mr. Harvey Bingham to have built at once a log cabin on the old Lincoln farm exactly where stood the cabin in which the martyred president of the United States was born and spent many hours of his life. The cabin is to be built of the identical logs that were in the original cabin.

A Peer Attacks the Irish.

LONDON, Sept. 5.—In the debate in the house of lords on the second reading of the Irish land purchase bill, Viscount Clifden said that the measure appeared to him to be one for the relief of evicted tenants, who, he said, were the scum of their class, and who amused themselves by cutting off the hair of women and shooting old men. He hoped that the bill would be rejected. The bill passed its third reading.

One Insane Man Kills Another.

INDIANAPOLIS, Sept. 5.—John Richards, a patient at the Central Hospital for the Insane, has caused the death of another patient, Nathan Dunihoo of New Albany. As the patients were filing into their apartments, Richards stepped from the line, picked up a chair and struck Dunihoo, knocking him senseless. Dunihoo died later.

A Drummer Found Fraker.

ST. LOUIS, Sept. 5.—J. S. Hackley, one of the best known drummers in the United States, whose business address is Louisville, and whose residence is Moberly, Mo., is the man who outstripped the best detective talent in "turning up" the big life insurance swindler, Fraker.

Breckinridge Will Defend Lane.

VERSAILLES, Ky., Sept. 5.—W. N. Lane, who murdered Colonel Rodenbaugh and his son, James, after a preliminary hearing here, has been ordered taken to Frankfort and kept there until the October term of court. Colonel Breckinridge is his attorney.

Englishmen the Best Players.

LIVINGSTON, S. I., Sept. 5.—Although the Oxford and Cambridge cricketers, under the captaincy of F. F. Mitchell, have scarcely lost their sea legs they have proved conclusively during the last few days play that the All New Yorkers are no match for them.

The Gold Reserve Again Intact.

NEW YORK, Sept. 5.—The sum of \$2,800,000 has been withdrawn for shipment, but as the bond syndicate deposited \$2,500,000 just at the close of business, the gold reserve is again intact.

FORCED TO VICTORY.
Judges Compel Patchen to Be Raced Fair and He Beats Gentry.

PHILADELPHIA, Sept. 5.—The special race for \$4,000 between Joe Patchen and John R. Gentry, at Belmont park, was the cause of more dissatisfaction than any similar event in the history of the association. Had there been betting it is doubtful if Curry, the driver of Patchen would have escaped mob violence. In the first heat Gentry took the lead and led by a length throughout. The second heat was a repetition of the first. In the third heat Gentry again took the lead and held to the wire, winning by a nose. It was apparent to the judges as it must have been to the spectators that Patchen was not being driven to win. Curry was hoisted and jeered at, and cries of, "Take him out," "Robber," and such like came from the grand stand. The judges declared this heat "no heat." The time was 2:08 1/4.

In the fourth heat, Patchen went out in front and led to the wire winning easily in 2:11. In the fifth there was no trouble. Patchen sat a slow pace and led by two lengths until well into the stretch. Here McHenry brought Gentry up and Patchen broke. Curry claimed that he could not prevent his horse from breaking, but the judges thought otherwise and declared this "no heat," and ordered both horses out again.

McHenry said it was an outrage to make his horse pace any more, he being in no way responsible for Curry's misdeeds, but the judges ordered another heat. They took Curry down and substituted Dickerson, who had driven Fred Kohl. Patchen won the heat easily, Gentry not being driven out and was distanced. The judges waived the distance and ordered a seventh heat. Patchen took the lead and jogged the mile in 2:08 1/4. Gentry finished in about three minutes.

The judges say they will take action against McHenry for the manner in which he drove the last two heats.

The first heat of the special race was the fastest mile ever made over the Belmont track, 2:06 1/4. The best previous record, 2:08 was made by Saladin on Aug. 16, 1893.

SPRINGFIELD, O., Sept. 5.—The Republican Clarke county executive committee has made final arrangements for the opening campaign rally here Sept. 10. Colonel Charles Anthony, commanding the Third regiment O. N. G. of this city, was appointed grand marshal of the parade, and was empowered to select as many aides as he saw fit. Committees on decoration, reception and entertainment were then appointed. The returns indicate that there will be a phenomenal attendance of Republicans from all parts of the state.

Wounded Prisoner Wanted In Galion.

DAYTON, O., Sept. 5.—William Foley, who was admitted to St. Elizabeth hospital here Sunday night suffering from two pistol wounds, turns out to be wanted at Galion, O., for shooting with intent to kill. He is a member of a tough gang that had a fight with a policeman there. Foley played possum, and while the policeman was chasing the others escaped. He has been identified by a Galion officer and will be taken back there.

Crowe Held For Missouri Officers.

CINCINNATI, Sept. 5.—When the case of Pat Crowe, charged with train robbery at St. Joe, Mo., was called in the police court, the prisoner was remanded until Sept. 14, to await the arrival of the officers from Missouri. It is now asserted that Crowe expects to show an alibi, and that the real motive for his arrest is to prove accusations of bribery against some of the county officers at St. Joe.

Central M. E. Conference.

SPRINGFIELD, Mo., Sept. 5.—Charles Allen, one of the Springfield (Ills.) post office robbers, who broke out of the Ludlow Street jail, in New York, July 4 last, has been caught here. He was arrested on a telegram from Park, 20 miles south, where he had flamed the postmaster and several bankers out of small sums. Claud Webb, a confidence man, recently chased out of St. Louis, was caught with him.

Members of a Mob Get Hurt.

ASHEVILLE, N. C., Sept. 5.—A mob of 150 or more negroes and whites went to the house of Elder Tanner, colored, to run him out of town. About 15 shots were discharged, two or three of the rioters were shot and also one woman living in the neighborhood. Tanner escaped injury. Policemen finally interfered and broke up the riot. Tanner and some of his supporters were brought to the city jail for protection.

Large Lake Boat to Be Built.

CLEVELAND, Sept. 5.—The Cleveland Shipbuilding company has taken a contract to construct for the Zenith Transient company of Duluth a steel steamer which will be larger than any boat ever launched on the lakes. It will be 420 feet in length, 40 feet beam and 28 feet depth of hold, will cost \$60,000 and is to be finished next June.

Former Bellairia Man Arrested.

CALDWELL, O., Sept. 5.—Major J. S. Dubois, a former well known resident of Bellairia, has been arrested at Coburn, Tex., charged with embezzlement from the firm of Goatz & Leaming, of Milwaukee, the sum of \$8,000 in 1895. It is said the total amount of his appropriation is \$75,000.

STRIKERS WILL WIN.

Cleveland Wireworkers Confer With President Edenborn.

AGREES TO SETTLE THE TROUBLE.

The Main Cause Seems to Have Been Misinformation Given the President Regarding Wages Paid in the Cleveland Will—Police Guarding the Works.

CLEVELAND, Sept. 5.—President Edenborn of the Consolidated Wire and Steel company has been seen by a committee of the strikers at the Baacke-Wire Nail works. He informed the committee that he will do all in his power to do away with the differences between them. The main cause of the trouble seems to have been misinformation given the president as to the wages paid in the Cleveland mill of the Consolidated company, and an immediate and satisfactory settlement of the strike is looked for. Police have been on guard at the works.

The Suicide Identified.

CLEVELAND, Sept. 5.—It is learned that the man who jumped overboard from the steamer State of Ohio, while on his way from Cleveland to Buffalo, was Leon Gorse, who had been confined in the insane department of the county infirmary here for some time past. Gorse was a Frenchman. He had shown such an improvement mentally that the authorities decided to release him. He desired to go to Buffalo and was furnished a charity ticket. He jumped overboard from the steamer at Fairport and was lost.

COMPANY E A WINNER

Receiving the Colonel's Compliments at Newark.

MORE ABOUT THOSE CANTEENS

Officers Pleased With Them—28 Hours For a Days Work—The Liverpool Boys Pushed to the Limit, but They Had the Staying Qualities.

Camp Howe, Sept. 5, 1895.—Yesterday in Camp Howe was the hardest Company E ever had in the military line. From the first sounding of the bugle in the morning until 10 o'clock today the Liverpool boys have been on duty, and with little grumbling. The morning drill was followed by an inspection of the first battalion and the companies K, E, G and B turned out in heavy marching order, exactly the same as they left home; for three hours were on the field in the blazing sun while Captain Heisten, of the regular army, inspected the men. The work was tedious, to say the least, and there would have been many prostrations from the heat had not the companies been allowed to lie in the grass and shield themselves from the sun as best they could while the company in front was being inspected. Company E came third, and passed a good inspection, as was mentioned in the NEWS REVIEW yesterday. The entire encampment was rigidly inspected and, excited no particular comment from the inspecting officer until he came to the canteens. Here he found an innovation. Each man was provided with a china canteen. They were examined carefully and found to be better than the regulation tin canteen. The advantages of the new canteens won a compliment for the boys, after it had been explained that they could not rust and were not liable to be broken in a march. Colonel Gyger decided that they were a good thing. With a covering of woolen cloth or canvas, with places for the straps to pass through instead of the attachments now in use, he believed they would be a good thing for the entire regiment, and it would not be surprising if some of these days an order for a thousand china canteens would come rolling into the East Liverpool manufacturers.

Inspection was followed by dinner, and it can be imagined that everybody was ready for it. Then comes commissioned and non-commissioned officer's school and battalion drill followed. The first battalion was given several styles of drill, but the most interesting was street or riot drill and the forming of the hollow square. This was executed with such precision as to bring words of praise from the officers. Dress parade came next and was one of the prettiest sights the hundreds of spectators have seen during the encampment. Supper over, guard mount was next, and the Liverpool soldiers found it was their turn to watch the lines during the night. They went on guard mount at 8 o'clock last night, and as above stated were not finally released until 10 o'clock this morning. This, after the strain of yesterday, made mere ghosts of the boys, but under the care of the cook they are resuming their natural shapes. Company E got credit for guarding the lines better than any other in camp. Only two men got through the lines, and they were given a hard chase. This is more than creditable, considering that there were only six pickets to guard the entire camp and consequently their posts were about a quarter of a mile apart. There was also a partial eclipse of the moon, and it was difficult to see the lines. Captain Benner was officer of the day, Lieutenant Finley officer of the guard and Lieutenant Johnson junior officer of the guard, and the boys kept them busy bringing in the "suspicious characters."

Charley Murphy, who lately opened a fine clothing establishment in Salem, is meeting with great success, and the opening the other evening was one of the greatest events in the history of Salem business. Thousands thronged the streets in the vicinity of the store and viewed the handsome appointments.

last night as the colonel's orderly, because, as Colonel Gyger put it, he was the neatest looking private in camp. Dave still wears the same sized hat.

Today the boys are resting from their labors and incidentally a half dozen are going to Newark.

A few of the boys have been affected by the heat but none seriously, and all are well.

"Any old time."

THE COMING FLOUR.

Best In the World For Health and Economy.

For the first time the Franklin Mills flour of the entire wheat is the coming flour in this city. It is unlike white flour, made by a new process. Facts showing its actual food value. For dyspepsia, indigestion and constipation. A natural and complete phosphatic food.

Superior to all prepared foods.

Unequalled for the brain workers. It is food for the muscular workers.

These are not idle statements, but established facts, appreciated when known, to be further appreciated as the flour becomes better known by use. Ask for the Franklin Mills Co. entire Wheat Flour. Only 75c per sack. For sale by Huntsman, the grocer, who will cheerfully furnish all particulars as to its properties and use.

Home From Hollow Rock.

All the Liverpool people who occupied cottages at Hollow Rock during the camp meeting are home. Mr. Maple and family, the last of the contingent, arriving today. All speak of the meeting as the most successful the society has ever held, the interest being greater than ever manifested before. It was a success also from a financial standpoint, the society now being in good condition.

More Cigarettes.

The cigarette was very much in evidence about central school building today at noon, but the youngsters were cute enough to stay a good distance away from the school. Seven boys puffed cigarettes, and all under the age required by law, were seen within a block of the building, while two others, old enough to smoke if they so desired, walked leisurely along the pavement.

Professor Gladding Here.

Professor Gladding, the gentleman who superintended the schools here several years ago, and was the last professor in charge before the old Fourth street building was demolished, is in town to witness the flag raising. The gentleman is now located at Le Roy, and very pleasantly situated.

A Successful Opening.

Charley Murphy, who lately opened a fine clothing establishment in Salem, is meeting with great success, and the opening the other evening was one of the greatest events in the history of Salem business. Thousands thronged the streets in the vicinity of the store and viewed the handsome appointments.

The Play Tonight.

The Warren company played to a good house at the Grand last evening, and the comedy scenes were well received. Tonight they play "Beyond the Rockies," a piece abounding in comedy and pathos. Every lady presenting a lady's ticket at the office will be admitted free when accompanied by one paid admission.

Good for the Girl.

The friends of one of the most popular and swiftest wheelmen in the city say today that he was coursing the streets of Wellsville last night astride of a tandem, and with him rode a young lady in bloomers, the first of their kind to be seen in town. They made a pretty picture and good time.

A New Professor.

The Ohio Valley Business College has recently added to its faculty Prof. E. R. Sebring, who will have charge of the penmanship and shorthand departments. Prof. Sebring is a highly recommended graduate in both branches, with several year's practical experience.

Steele Wants to Ride.

Rumor has it here today that J. F. Steele, the Lisbon crack, is anxious to ride under Liverpool's orange and blue at what few bicycle races remain this season. Steele is a speedy one, and would make a welcome addition to our racing team.

In New Business.

Rose & Dix, the enterprising circulation agents of the NEWS REVIEW, have purchased the business of James E. Orr, and are making a good start. The young men are hard workers, and will undoubtedly make the venture a complete success.

Too Much for Him.

Fred Furrow, a young man who rode a five mile bicycle race on Labor Day, has been so ill since that time that he can not work, being confined to his room. He rode too much for his strength.

Country Boys Make the Best Players on the Diamond.

KENNEDY AND YOUNG AS EXAMPLES

They Are Temperate and Easily Controlled, Like Most Farm Boys—Fighting to Get Into the First Division—Brooklyn's Great Sport—Pitcher McMahon's Recovery.

Young men from the farms and most of those whose boyhood has been spent in country towns and villages are almost invariably consumed with a desire to go to the large cities and make their homes amid the fascinating scenes of metropolitan life.

There is one vocation in which, if the country boy gets a foothold, he need have no fears for his future enjoyment of city life and luxury. I refer to professional baseball playing of the first class.

The large majority of the successful ball players in the National league came originally from the farms or the rural towns. Good instances are found in Pitchers Young and Kennedy. Both have been nicknamed Cy on account of their country nativity, and both are among the most successful of the leading pitchers of the country. Both are Ohioans and both have worked on the farm. At this closing period to the League race Kennedy is doing very nearly the best pitching in the country.

There is one advantage which most of these farm products of the diamond have over the players who hail from the larger towns or cities—they are invariably tem-

G. A. R. DAYLIGHT SPECIAL

To National Encampment at Louisville Over Pennsylvania Lines.

On Monday, Sept. 9, G. A. R. veterans and friends from West Virginia, Southwestern Pennsylvania, South Eastern Ohio will go to the national encampment over the Pennsylvania lines, that route having been selected by a number of posts. Arrangements have been made for special trains to run through to Louisville by daylight, reaching there in time for supper on Monday. The organizations going on the special will include: James A. Garfield and Lucy B. Hayes circles, Ladies of the G. A. R., of Wheeling, Spangler post, of Bellair; Branum post, of Bridgeport; Thoburn post, of Martin's Ferry; E. M. Stanton post, of Steubenville; General Lyon post, of East Liverpool; Henry Cope post, of Wellsville; G. W. Shuster post, of Toronto; J. S. McCready post, of Cadiz; Welch post, of Ulrichsville and Dennison; Minerva post, of Minerva; Sandy Valley post, of Waynesburg; Andrew Crawford post, of New Philadelphia; John H. Carr post, of Washington; R. M. Lyon post, of Bowerton. The specials will concentrate on the Pan Handle at Steubenville, Newcomerstown and Cadiz junction, excursionists being carried from their starting points without change. Columbus will be reached at 11 a. m., from which point the specials will run through to Louisville on fast schedule without making any regular stops, going via Xenia, Dayton and Indianapolis. Leaving time from East Liverpool will be 5:30 a. m., central time, round trip \$8. Excursion tickets at that rate will be sold for regular trains over the Pennsylvania lines Sept. 8, 9, 10 and 11. All tickets will be good returning until Oct. 5, inclusive.

The Baltimore's string of 14 straight victories is the consecutive game record of the year. It is all the more creditable because it was made against such clubs as the New Yorks, Boston, Washingtons, Chicago and Cincinnati. The best record in the preceding years was made by the Phillips in 1893—16 games. Brooklyn's great sport right on the Baltimore's heels had a tendency to whet the enthusiasm created by the champions' great work. McMahons restoration is the sensation of the year in baseball. Nineteen of every twenty baseball players, including McMahons himself, believed that his arm was permanently injured. Yet since his return to the diamond one year after he was disabled—he has not lost a game and has made it a favorite for the other side every time he pitched. Still I am told by teams which have faced him that he uses none of the great speed which formerly characterized his pitching. If that be true, it may mean that his arm, spite of its apparent recovery, is still in doubt, or it may mean that the wise, long headed owner does not intend to take any extra chances of injuring it again during the rest of this season. Every lover of baseball hopes that the great pitcher has come back to stay.

ASSAULT AND BATTERY

Is the Charge Mrs. Coulson
Must Answer.

FIVE HUNDRED DOLLARS BOND

Asked by the Mayor This Morning After
She Had Denied Her Guilt—Mrs. Mackey
is a Little Better, Although Very Sore.
Danger of Death Decreasing.

What promised yesterday to develop into a murder case, decked out with all the trimmings of a sensational family fight, has dwindled today to the meagre proportions of an assault and battery charge, to which Mrs. Coulson denied her guilt this morning.

The woman was arraigned before Mayor Gilbert, and was asked if she would plead guilty to the charge of assault and battery and promptly denied that she knew anything about the case or had anything to do with the assault on Mrs. Mackey. Her demeanor was defiant, and she seemed confident that she had the right side of the case. She reiterated her statement that she was innocent and looked somewhat surprised when the mayor asked if she could give bond for \$500 to appear at a hearing, the date of which had not been set. Mrs. Coulson didn't have the amount in her dress pocket, and none of her wealthy friends were there to vouch for her, so with all her claims of innocence she was sent back to jail, where she will stay until the bond appears or she comes forth to the hearing.

Inquiry at the residence of Mrs. Mackey developed that the patient was somewhat better today, and feeling better. She is still very sore and the blow near the temple is causing her some concern, while the bruise on the shoulder is decidedly painful. The symptoms, however, are for the best, and her friends believe that she will soon recover. Mrs. Mackey's friends believe that she only escaped death by a miracle, and one neighbor was heard to express the belief that she had a very narrow escape. Doctor Taylor stated this afternoon that he now considered Mrs. Mackey out of danger although she was not well. A severe hemorrhage removed all the clotted blood this morning, and danger from that source is at an end. Mrs. Mackey will be ill for several days, but she will gradually regain her strength, and will soon be able to appear at the hearing, if her evidence is needed.

There have been no more arrests in connection with the assault of Mrs. Mackey, although it was rumored yesterday that Mrs. Coulson's daughter would be brought into the matter as a defendant. At a late hour this afternoon Mrs. Coulson had not given Mayor Gilbert the required bail, and the time for the hearing had not been set.

ALL THINGS ARE READY.

The Flag Raising Will Come Off Without a Hitch.

The committee having in charge the flag raising at Central school building say that all things are ready for tomorrow, and every little detail so far as they are able to see has been arranged. This report was made at the meeting last night, and until tomorrow morning the committee will rest. Early on Friday a force of men from the different orders will begin the erection of a platform for the speakers and bands and will have it finished at noon. Professor Gotschall will have charge of the singing of patriotic airs, and the people are invited to join their voices until the Virginia hills will send back the echo. W. V. Blake will marshal the citizen's club, and every man in Liverpool who is not connected with a patriotic order is invited to turn out, reporting at the rink at 12:30, and forming in line as Mr. Blake directs. Secretary Morris, of the Young Men's Christian association, has extended an invitation to visitors through the committee to make themselves at home in the rooms. The committee asks that all people along the route see to decorations, and they want Old Glory to fly everywhere. In connection with the program as published in the NEWS REVIEW yesterday, the Sons of Veterans will fire a salute as the handsome new flag goes bounding toward the top of the pole. Let everyone turn out, and swell the throng.

THEY MUST BE CLOTHED.

Adam and Eve are represented on the banner of the potters' organization in Neisse, Silesia, just as they looked before they fell from grace. The potters of Neisse have been carrying this banner, which is a work of art in its delicate silk and gold embroidery, for 200 years or more, and nothing has been said

about it. But now the main parish priest of Neisse has forbidden the potters to join in a big church procession unless they put some clothes on Adam and Eve. The potters refused to supply the apparel, and when the day of the procession came they were shut out. Hence a row: hence the ancient banner was torn in the free fight that followed; hence the potters of Neisse have sued the priest for damages. It will make an interesting case.—Berlin letter to the Chicago Record.

POSTPONED THE SPORTS.

Field Day Will Not Take Place Until Monday.

The rain of last evening was too much for the East End track, and the Young Men's Christian association sports are postponed until Monday of next week. There was a large list of entries, and the athletes were anxiously waiting for the time when a start would be made, but Mr. Conkey, Secretary Morris and the directors held a meeting this afternoon and decided to postpone it. The track was unfit for wheelmen to ride, and the contestants in other events would have been severely handicapped by the condition of the grounds. If Monday is fine, a large crowd will be present. Among the out of town people who were here to contest are W. A. Rodgers, Martin's Ferry; Mr. Inglese, Claysville; Messrs. Wintlinger and O'Neil, of Steubenville.

The First National After Some Money—A Divorce.

Special to the NEWS REVIEW.

LISBON, Sept. 5.—The First National bank, of East Liverpool, began action today seeking to recover \$800 on a note which is signed by A. C. Bradshaw and endorsed by E. B. Bradshaw. The note was made last April, and was presented in due time for payment, but that was refused, and the note went to protest. The bank wants the amount of the note, interest and protesting fees.

The only other case on record here today is that of Mrs. Lorena Anglemeyer who seeks a divorce from her husband on the custody grounds of drunkenness and desertion. She claims they were married 14 years ago, and had two children, the custody of whom she desires.

AFTER SATISFACTION.

The Girl Was From Wellsville and Didn't Care Who Knew It.

A number of people were attracted to a prominent comer in the business part of the city the other evening by the words which fell from the lips of a well dressed young girl, who was earnestly engaged in conversation with a Liverpool boy who is known somewhat in society. She was telling him in words which could not be mistaken that there would have to be a marriage ceremony very soon at her home in Wellsville, and he would be present as the loving groom, for her father had heard certain stories, and as he was a good workman, he might decide to do some shooting. The girl was laboring under great excitement, and the young man found it convenient to say that he would be around.

TO ORGANIZE THE CLERKS.

Movement Is Started In Trades Council.

At the meeting of Trades council last night all the bills of the celebration were ordered paid, and the request of some business men for a resolution sanctioning the early closing movement was laid on the table, council not desiring to move in that direction because it was looked upon as none of its affair. A movement to organize the clerks of the city was set on foot, however, and the district organizer of the Federation, together with the committee, will soon have it under way. The bill of a local paper asking payment for the publication of matter it had published as news was referred to a committee, and the endorsement of the people was withdrawn.

FOUGHT FOR HIS SISTER.

Two Boys Did Battle Because One Was Profane.

The fiercest fight seen on the hill for many months occurred yesterday afternoon. A lad whose name could not be learned spoke slightly of another boy's sister, and in a few minutes a challenge to fight had been sent and accepted, and the youngsters were at it. They punched and fought for almost half an hour, one being scratched on the face and the other being bit in the arm. So much attention did the fight attract that the janitor at the Grant street school attempted to stop it and was buffeted around by the boys for several minutes before the battle was stopped.

MORE RAIN.

A Spell of Weather Is Heading In This Direction.

The weather men say that a spell of rainy weather is headed this way from the west, and there may be enough water the next week to raise the river so that boats can travel, and the millions of tons of coal in Pittsburgh harbor can move southward. It will require at least three inches of rain fall before the boats can move south with safety, and only constant rain for more hours than usually falls to the lot of this valley could produce that result. The rain last night is thought to be the forerunner of numerous heavy showers.

RECOVERED THE HORSE.

Chief Gill Was Working On the Case.

A few nights ago a horse was stolen from a stable in New Brighton, and the authorities here were notified, as the thief was thought to have come this way. Chief Gill took the case in hand, and with that energy that has made him one of the best officers of the valley, soon located the animal at a gypsy camp near Vanport, where it had been traded by the thief. One of the owners accompanied the chief to the place last night, and they found that the other owner had recovered the animal not 10 minutes before.

Irons and Trappe Rode Well at Youngstown.

Irons and Trappe rode well at the Youngstown races yesterday, and the plucky little racer with the red sash carried the blue and orange to victory in the mile open, winning it easily in 2:25. He also started in the two mile handicap on the scratch, but left the track before the race was over. Bert Irons was up among the leaders in the mile 2:50 class, but Steele, the Lisbon boy, was too much for him, and won out, with Irons a close second.

ONE OF MANY.

The six year old son of William Thompson was coasting on a small wagon on Seventh street last evening when he struck a stone, and was thrown headlong into the road. One wrist was dislocated, and the boy was painfully bruised. This is not the first accident of this character that has occurred, and boys all over the city bear bumps as marks of accidents.

The other evening a youth rolled half way down Washington street hill after falling off his wagon.

A LOCAL paper will learn the necessity for good English when it discovers some day that the term "burst" is not a word at all.

THE syndicate whose members have promised to keep the gold reserve intact are keeping their word, but watch for the toboggan after Oct. 1, when the contract expires.

THE novelty of a Democrat attempting to operate a labor paper under a Populist cloak will, in view of the awful overhauling Coxey got last year, be interesting in the extreme.

A BOLD BLUFF.

Mr. Campbell, of Hamilton, the hired man of the Democracy, as he has been playfully yet truthfully styled, will undoubtedly depend upon the shining gold of Mr. Brice for the means of boosting him into power; but with the nerve for which he is noted he will attempt to make some show at a canvass by fighting on state issues. This pride of Democracy, this paragon of political trickery, can not find in national issues anything upon which to base his claim for consideration. If he touches upon the financial question the public will laugh him to scorn for the awful straddle he made at Springfield, and if he should dip into the mysteries of the Wilson bill he will be the target for the darts of truth, and toughened though he is by many a hard fought campaign, they would hurt. So Campbell will fight on state issues, and Brice will spend his money on one issue—that of electing Brice—while the people will go to the polls and vote for Bushnell, as they ought to do.

A PRACTICAL ILLUSTRATION.

The Democratic press, filled with fear that the tariff will be the issue in the coming campaign, is making all sorts of statements about how their legislation is improving the condition of the country and, as usual, pointing with pride to their work as the cause of returning prosperity. But they count upon the credulity of a people who have been learning lessons that dear old school of experience, and who are even now only putting the finishing touches on their education. The iron worker who does not receive the wages of three years ago in spite of reported increases and all these beautiful stories which the Democrats tell, will be a hard man to convince of the efficiency of tariff reform as an increaser of wages. The potter, who receives less for his labor and skill than he ever received before, will only laugh at the Democrat who attempts to show him the advantage of Wilson's wage destroyer. There are whole armies of facts to stand against the theoretical nonsense of the reformers, and the best part of the argument is found in the experience of the past few years. Democracy would like to bury the tariff as an issue forever; but fortunately for America the Democracy can not always have its way.

A FRIEND OF MISSIONS.

Li Hung Chang Issues Proclamation In Their Behalf.

HE PRAISES THE MISSIONARIES.

Declares That the Chinese Must Not Molest Them—Their Work For the Good of the People—Letter From a Missionary in Nanking.

NEW YORK, Sept. 5.—Robert E. Speer, secretary of the board of foreign missions of the Presbyterian church in the United States, has received a letter from Rev. I. W. Houston of Nanking, China. The letter contains a copy of the proclamation issued by Li Hung Chang, the viceroy, which not only requires the Chinese to refrain from molesting missionaries, but speaks in terms of praise of the work done by them.

Mr. Speer says that the proclamation illustrates the folly of forming judgment of the whole of China from conditions existing in one section, and it is the more significant because Nanking has always been a more or less turbulent center. The following is the letter:

"In Sze-Chuan, 2,000 miles to the west, wholesale destruction of mission property has taken place; here we are sought after by the officials. Three weeks ago our district magistrate invited all the men of our mission community to dinner, treating them with all honor, and now comes, unsolicited, one of the best proclamations which have been issued in China since the eve of modern mission. The translation is as follows:

"Given by Li, by grace of the emperor, commissioner of salt revenue, expectant intendant of circuit and prefect of the Jaing Ning (Nanking) circuit, being advanced three steps in office and having one brevet rank, having 13 times honorable mention in official records.

"For the purpose of publicity and straitly charging the people concerning foreigners, who have in whatsoever points of the interior established chapels, schools or like places. For a long time these have been permitted by the emperor's commands. Now, having examined the doctrine halls in every place pertaining to this prefecture, we find that there have been established free schools where the poor children of China may receive instructions; hospitals where Chinamen may freely receive healing; that the missionaries all are really good; not only do they not take the people's possessions, but they do not seem to desire men's praise.

"Already the prefect, with the magistrates of the provincial capital, has personally visited each hall and has commanded the magistrates of outside districts to personally visit each out station of the churches and talk with the missionaries. They have personally observed the hospitals, schoolhouses, etc. They are for good, established with the sincere desire to save men. Although Chinamen are pleased to do good, there are none who excel these (missionaries).

"We think it right, therefore, to put forth this proclamation, plainly charging soldiers and all people. Be it known that foreigners here renting or otherwise setting up halls to do so to save and to help the poor, and that there is not the least under-handedness. Let it not be that you, on the contrary, wrongly invent false reports and even commit crimes and misdemeanors. If there should be shameless villains who, thinking to fish for wealth (i. e.: Take by violence), invent reports and create disturbances, falsely accusing (the missionaries) of offenses, they will first be thoroughly examined, then strictly dealt with. They will be punished to the fullest measure, certainly not leniently. You have been informed and warned. Do not disregard this proclamation."

SUMMER PLEADS GUILTY.

The Captain of the Cruiser Columbia Being Court-martialed at Brooklyn.

BROOKLYN, Sept. 5.—The trial by court-martialed of Captain George W. Sumner of the United States cruiser Columbia, on charges growing out of the investigation just concluded regarding the injuries sustained by the vessel at the Southampton drydock, on July last, is being held at the Brooklyn naval yard.

The charges embrace three counts—first, criminal negligence and inefficiency while on duty; second, suffering a vessel of the navy to be hazarded according to clause 11, article 8, of the articles regulating the navy, and third, neglect of duty.

As Captain Sumner has pleaded guilty to the charges preferred, it is expected that the trial will be brief.

THE OHIO WOOLGROWERS.

They Want the Fifty-fourth Congress to Restore the Wool Tariff.

COLUMBUS, Sept. 5.—The Ohio Woolgrowers' association has adopted a resolution to the effect that free wool is causing heavy loss to the farmers and urging all woolgrowers, farmers and others interested in wool protection to petition the Fifty-fourth congress to pass legislation favorable to such interests.

Judge Lawrence announced he would call a meeting of the National Woolgrowers' association at Washington after congress assembles to inaugurate a movement to have the tariff on wool restored.

Baseballists Stranded in London.

LONDON, Sept. 5.—According to the statement of N. P. Cook, secretary of the London Baseball association, the English tour of the Boston amateur baseball club has come to a disastrous end, and several members of the team are stranded in London. Contrary to previous reports, there has been no interest in the game of baseball anywhere in England.

Spurred by a Priest.

SCRANTON, Pa., Sept. 5.—A new phase of the war for the possession of the Greek Catholic church at Old Forge developed when Rev. Valentine Balogh, the accredited pastor of the church, began an action in slander to recover \$5,000 damages from Kast Rusin for alleged defamation of character.

IOWA'S ARMOR IMPREGNABLE.

Successful Tests Made on an Actual Reconstruction of the Battleship's Side.

WASHINGTON, Sept. 5.—The new battleship Iowa will withstand the projectiles of the best 12-inch gun afloat. This is the conclusion drawn from one of the most important tests ever made at the government proving ground at Indian Head. Since the equipment of modern battleships with heavy armor there has been, in naval quarters, a question as to whether the frame work of ships so armored could resist the crushing force of a blow from one of the big guns, even though the armor itself was capable of keeping the projectile out. Hitherto all tests of armor have been made against an unyielding wooden butt.

The United States, for the first time since the use of modern guns and modern armor, has begun experiments to determine the actual strain and injury to which a battleship would be subjected if struck by a projectile. For that purpose a side armor plate of the battleship Iowa, now building at the Cramp's yards in Philadelphia, was fitted up as an actual reproduction of a section of the ship. It withstood shots from 12-inch and 10-inch guns, one shot being with a Wheeling Sterling shell.

SALISBURY WARNS TURKEY.

Armenian Reforms Must Be Adopted or Trouble Will Result.

CONSTANTINOPLE, Sept. 5.—It is officially announced here that Rustem Pasha, Turkish ambassador to England, has telegraphed to the foreign minister that he has had an interview relative to the Armenian question with Lord Salisbury, whom he had assured that the sublime porte is not opposed to the reforms proposed by the powers, but that Turkey could not permit control of Armenia by an international commission.

Lord Salisbury replied that under the circumstances it would be useless to continue the interview. If, he said, the porte backs down in its refusal, the powers will undertake the suggested reforms and rest satisfied. If, however, the porte continues to resist, it would be a signal for trouble.

Politics Won't Be Allowed to Interfere.

WASHINGTON, Sept. 5.—James M. Allen, who for a number of years has been connected with the military prison at Fort Leavenworth, Kan., has been promoted and appointed deputy warden of the same institution which recently was placed under the department of justice as a United States prison.

Out of 50 guards at this prison who were United States soldiers, 33 have been released from their enlistment by the war department and re-appointed as guards. The question is, do the remaining 17 stand up to several thousand dollars. No lives were lost.

Minister on Trial For Wife Murder.

DANVILLE, Ind., Sept. 5.—The jury for the trial of the Rev. William E. Henshaw, the young Methodist minister, who is charged with the murder of his wife, Theresa, last January, is being selected here. The trial promises to be one of the most sensational cases held in Central Indiana. Henshaw was holding protracted meetings at the time the crime was committed, and claims that his wife was the victim of robbers. Henshaw also received 17 stab wounds and two gunshots. He was arrested several weeks after his wife's death.

No Bannocks In Confinement.

ST. PETERSBURG, Sept. 5.—The department of justice has notified the Indian Bureau that there are no Bannock Indians in confinement at Marysvale, Wyo., those arrested and imprisoned by the state authorities for violation of game laws having been allowed to escape. The district attorney for Wyoming is therefore unable to ask writs of habeas corpus in their behalf, and the Japanese will grant no quarter and spare neither women nor children.

WHY WETTER NEGLECTED WALLER.

The Ex-Consul Opposed His Attempt to Railroad an American In Jail.

WASHINGTON, Sept. 5.—A species of interest is to be added to the Waller case by an investigation by the state department of Consul Wetter, who was Waller's successor and is the present consul at Tamatave, Madagascar. This investigation is the result of charges made by Charles T. Lyons, a resident of Brooklyn, who was temporarily in Madagascar on business last September.

Mr. Lyons went to the island as the agent of a Boston firm of exporters and, it is alleged, incurred the enmity of Wetter through the fact that in taking the place there he necessarily ousted a man who was a personal friend of Wetter's. Wetter had Lyons arrested on the charge of opening mail addressed to the consul to the governor of one of the provinces of Madagascar, and at his trial insisted upon sitting as Lyons' judge, as well as acting as prosecutor. Lyons became so convinced that he was doomed to imprisonment through this process that he forfeited his bail and left the island before the trial terminated.

The investigation will bear directly upon the Waller case. Waller and his stepson, Paul Bray, sat with Wetter as members of the court and it appears themselves gained the ill-will of Wetter because they resisted what they conceived to be Wetter's desire unduly to punish Lyons. This was one of the questions touched upon by Waller in one of the letters to his wife, which were intercepted by the French authorities, and this fact, it is asserted, accounts for Wetter's alleged suspicion in defending Waller's rights.

THE TENNESSEE STORM.

It Wrecked Buildings and Did Great Damage at Huntingdon.

NASHVILLE, Sept. 5.—The storm at Huntingdon was the severest in its history. Its course was northwest, and it was accompanied by torrents of rain. The Nashville, Chattanooga and St. Louis railway depot was completely wrecked, with the exception of the telegraph office, in which several persons were seated. The debris from the freight department fell in such a direction as to protect it. The roof was blown from the main Southern Normal university building.

On the public square, the large brick storerooms occupied by W. H. Carter, grocer; Head & Son, drygoods; Kern & Lusk, drygoods, and Scott & Bowles, clothing, were unroofed, and their stocks damaged. The front of Henry's jewelry store was blown down. The public square is almost impassable because of the timber and debris. The damage amounts to several thousand dollars. No lives were lost.

Politics Won't Be Allowed to Interfere.

WASHINGTON, Sept. 5.—James M. Allen, who for a number of years has been connected with the military prison at Fort Leavenworth, Kan., has been promoted and appointed deputy warden of the same institution which recently was placed under the department of justice as a United States prison.

Out of 50 guards at this prison who were United States soldiers, 33 have been released from their enlistment by the war department and re-appointed as guards. The question is, do the remaining 17 stand up to several thousand dollars. No lives were lost.

Minister on Trial For Wife Murder.

DANVILLE, Ind., Sept. 5.—The jury for the trial of the Rev. William E. Henshaw, the young Methodist minister, who is charged with the murder of his wife, Theresa, last January, is being selected here. The trial promises to be one of the most sensational cases held in Central Indiana. Henshaw was holding protracted meetings at the time the crime was committed, and claims that his wife was the victim of robbers. Henshaw also received 17 stab wounds and two gunshots. He was arrested several weeks after his wife's death.

TOWER TOPPLES OVER.

Fatal Building Accident at Springfield, Ills., Fairgrounds.

TWO KILLED, A NUMBER INJURED.

A Hard Rain Is Thought to Have Loosened the Mortar, Which Caused the Disaster—Five Workmen Asphyxiated By Gas at Providence, R. I.

SPRINGFIELD, Ills., Sept. 5.—The west tower on the great machinery hall at the state fairgrounds, which was being roofed, has collapsed and fallen in, burying several men beneath its ruins. Charles Hobson of Lincoln and James Park of this city, both plumbers, who were at work on the ground floor, were killed. They were covered with several tons of brick and mortar.

The injured are: Fred Berg, a carpenter, badly mashed; N. Williamson, a carpenter, both ankles broken; Samuel Davenport of Chicago, boss carpenter, badly injured about the back by falling debris; John Gethard, a carpenter, large gash cut in his head, will probably recover; Charles Brownell, water carrier, both legs and both arms broken, also badly burned by mortar and fearfully lacerated, will die.

Neither building nor tower was braced, but whether this caused the accident is not known. It is the general opinion that the hard rain loosened the mortar which had not time to dry, work having been rushed on the building in order to have it completed in time for the fair, and this caused the accident. The loss will amount to several thousand dollars.

James Clancy, a stoker, fell from the roof into a motor bed, striking on his head, but escaped with a few bruises. All the imprisoned men had been gotten out. Several were uninjured.

DEATH BY ASPHYXIATION.

Five Workmen Killed in a Cellar at Providence, R. I.

PROVIDENCE, R. I., Sept. 5.—Five employees of the Providence Gas company have been killed in the cellar of the Westfield Street gas holder, asphyxiated by gas being the cause.

The names of the dead are: Cotton, 26 years of age, single, Bird street; Riley, 45, married with six children, Thornton pike; McManus, married, Borden and Mary streets; Burns, 19, East Providence, and McNamee, 36, single, Brook street.

Home of Lincoln to Be Rebuilt.

LAWRENCEBURG, Ky., Sept. 5.—Lincoln Park, in Larue county, is to be made one of the most historic places in the south. Mr. A. W. Bennett, the owner, has wired Mr. Harvey Bingham to have built at once a log cabin on the old Lincoln farm exactly where stood the cabin in which the martyred president of the United States was born and spent many hours of his life. The cabin is to be built of the identical logs that were in the original cabin.

A Peer Attacks the Irish.

London, Sept. 5.—In the debate in the house of lords on the second reading of the Irish land purchase bill, Viscount Clifden said that the measure appeared to him to be one for the relief of evicted tenants, who, he said, were the scum of their class, and who amused themselves by cutting off the hair of women and shooting old men. He hoped that the bill would be rejected. The bill passed its third reading.

Chinese for Atlanta Exposition.

WASHINGTON, Sept. 5.—The treasury department has received a telegram announcing the arrival at Vancouver, B. C., of 150 Chinese destined for the Atlanta exposition. It is supposed these Chinese will enter the United States at Ogdensburg, N. Y., and the collector there has been instructed to be on his guard against illegal entries.

Bonds to Build the Road.

HUNTINGTON, W. Va., Sept. 5.—The stockholders of the Columbus, Huntington and Guyan railroad have authorized the board of directors to issue mortgage bonds, not to exceed \$25,000 per mile, to be used in the construction of the road. Work on the line will begin at once and will be completed in 18 months.

Black List Don't Go.

INDIANAPOLIS, Sept. 5.—Judge Stubbs of the police court has fined Fertig & Co. \$25 and costs for discharging an employee because he was a member of a labor organization. This is the first conviction under the act passed by the legislature last winter. The case will be appealed to the supreme court.

The Gold Reserve Again Intact.

NEW YORK, Sept. 5.—The sum of \$2,800,000 has been withdrawn for shipment, but as the bond syndicate deposited \$2,500,000 just at the close of business, the gold reserve is again intact.

FORCED TO VICTORY.

Judges Compel Patchen to Be Raced Fair and He Beats Gentry.

PHILADELPHIA, Sept. 5.—The special race for \$4,000 between Joe Patchen and John R. Gentry, at Belmont park, was the cause of more dissatisfaction than any similar event in the history of the association. Had there been betting it is doubtful if Curry, the driver of Patchen would have escaped mob violence. In the first heat Gentry took the lead and led by a length throughout. The second heat was a repetition of the first. In the third heat Gentry again took the lead and held to the wire, winning by a nose. It was apparent to the judges as it must have been to the spectators that Patchen was not being driven to win. Curry was hooted and jeered at, and cries of "Take him out," "Robber," and such like came from the grand stand. The judges declared this heat "no heat." The time was 2:08 1/4.

In the fourth heat, Patchen went in front and led to the wire winning easily in 2:11. In the fifth there was no trouble. Patchen sat a slow pace and led by two lengths until well into the stretch. Here McHenry brought Gentry up and Patchen broke. Curry claimed that he could not prevent his horse from breaking, but the judges thought otherwise and declared this also "no heat," and ordered both horses out again.

The Suicide Identified.

CLEVELAND, Sept. 5.—It is learned that the man who jumped overboard from the steamer State of Ohio, while on her way from Cleveland to Buffalo, was Leon Gorse, who had been confined in the insane department of the county infirmary here for some time past. Gorse was a Frenchman. He had shown such an improvement mentally that the authorities decided to release him. He desired to go to Buffalo and was furnished a charity ticket. He jumped overboard from the steamer *Atalanta* and was lost.

The judges say they will take action against McHenry for the manner in which he drove the last two heats.

The first heat of the special race was the fastest mile ever made over the Belmont track, 2:06 1/4. The best previous record, 2:08 was made by Saladin on Aug. 16, 1893.

He was a delegate from West Virginia to the national convention at Baltimore that nominated Lincoln for his second term.

An Escaped Robber Caught.

SPRINGFIELD, Mo., Sept. 5.—Charles Allen, one of the Springfield (Ils.) post-office robbers, who broke out of the Ludlow Street jail, in New York, July 4 last, has been caught here. He was arrested on a telegram from Park, 20 miles south, where he had film flamed the postmaster and several bankers out of small sums. Claud Webb, a confidence man, recently chased out of St. Louis, was caught with him.

Members of a Mob Get Hurt.

ASHEVILLE, N. C., Sept. 5.—A mob of 150 or more negroes and whites went to the house of Elder Tanner, colored, to run him out of town. About 15 shots were discharged, two or three of the rioters were shot and also one woman living in the neighborhood. Tanner escaped injury. Policemen finally interfered and broke up the riot. Tanner and some of his supporters were brought to the city jail for protection.

One Insane Man Kills Another.

INDIANAPOLIS, Sept. 5.—John Richards, a patient at the Central Hospital for the Insane, has caused the death of another patient, Nathan Dunihoo of New Albany. As the patients were running into their apartments, Richards stepped from the line, picked up a chair and struck Dunihoo, knocking him senseless. Dunihoo died later.

A Drummer Found Fraken.

ST. LOUIS, Sept. 5.—J. S. Hackley, one of the best known drummers in the United States, whose business address is Louisville, and whose residence is Moberly, Mo., is the man who outstripped the best detective talent in "turning up" the big life insurance swindler, Fraken.

Breckinridge Will Defend Lane.

STRIKERS WILL WIN.

Cleveland Wireworkers Confer With President Edenborn.

AGREES TO SETTLE THE TROUBLE.

The Main Cause Seems to Have Been Misinformation Given the President Regarding Wages Paid in the Cleveland Mill—Police Guarding the Works.

CLEVELAND, Sept. 5.—President Edenborn of the Consolidated Wire and Steel company has been seen by a committee of the strikers at the Baackes Wire Nail works. He informed the committee that he will do all in his power to do away with the differences between them. The main cause of the trouble seems to have been misinformation given the president as to the wages paid in the Cleveland mill of the Consolidated company, and an immediate and satisfactory settlement of the strike is looked for. Police have been on guard at the works.

The Suicide Identified.

CLEVELAND, Sept. 5.—It is learned that the man who jumped overboard from the steamer State of Ohio, while on her way from Cleveland to Buffalo, was Leon Gorse, who had been confined in the insane department of the county infirmary here for some time past. Gorse was a Frenchman. He had shown such an improvement mentally that the authorities decided to release him. He desired to go to Buffalo and was furnished a charity ticket. COMPANY E A WINNER

Receiving the Colonel's Compliments at Newark.

MORE ABOUT THOSE CANTEENS

Officers Pleased With Them—28 Hours For a Day's Work—The Liverpool Boys Pushed to the Limit, but They Had the Staying Qualities.

Camp Howe, Sept. 5, 1895.—Yesterday in Camp Howe was the hardest Company E ever had in the military line. From the first sounding of the bugle in the morning until 10 o'clock today the Liverpool boys have been on duty, and with little grumbling. The morning drill was followed by an inspection of the first battalion and the companies K, E, G and B turned out in heavy marching order, exactly the same as they left home; for three hours were on the field in the blazing sun while Captain Heisten, of the regular army, inspected the men. The work was tedious, to say the least, and there would have been many prostrations from the heat had not the companies been allowed to lie in the grass and shield themselves from the sun as best they could while the company in front was being inspected. Company E came third, and passed a good inspection, as was mentioned in the NEWS REVIEW yesterday. The entire encampment was rigidly inspected and, excited no particular comment from the inspecting officer until he came to the canteens. Here he found an innovation. Each man was provided with a china canteen. They were examined carefully and found to be better than the regulation tin canteen. The advantages of the new canteens won a compliment for the boys, after it had been explained that they could not rust and were not liable to be broken in a march. Colonel Gyger decided that they were a good thing. With a covering of woolen cloth or canvas, with places for the straps to pass through instead of the attachments now in use, he believed they would be a good thing for the entire regiment, and it would not be surprising if some of these days an order for a thousand china canteens would come rolling to the East Liverpool manufacturers.

Inspection was followed by dinner, and it can be imagined that everybody was ready for it. Then comes commissioned and non-commissioned officer's school and battalion drill followed. The first battalion was given several styles of drill, but the most interesting was street or riot drill and the forming of the hollow square. This was executed with such precision as to bring words of praise from the officers. Dress parade came next and was one of the prettiest sights the hundreds of spectators have seen during the encampment. Charley Murphy, who lately opened a fine clothing establishment in Salem, is meeting with great success, and the opening the other evening was one of the greatest events in the history of Salem business. Thousands thronged the streets in the vicinity of the store and viewed the handsome appointments.

last night as the colonel's orderly, because, as Colonel Gyger put it, he was the neatest looking private in camp. Dave still wears the same hat.

Today the boys are resting from their labors and incidentally a half dozen are going to Newark.

A few of the boys have been affected by the heat but none seriously, and all are well.

THE COMING FLOUR.

Best In the World For Health and Economy.

For the first time the Franklin Mills flour of the entire wheat is the coming flour in this city. It is unlike white flour, made by a new process.

Facts showing its actual food value.

For dyspepsia, indigestion and constipation. A natural and complete phosphatic food.

Superior to all prepared foods.

Unequalled for the brain workers. It is food for the muscular workers.

These are not idle statements, but established facts, appreciated when known, to be further appreciated as the flour becomes better known by use. Ask for the Franklin Mills Co. entire Wheat Flour. Only 75c per sack. For sale by Huntsman, the grocer, who will cheerfully furnish all particulars as to its properties and use.

Home From Hollow Rock.

All the Liverpool people who occupied cottages at Hollow Rock during the camp meeting are home. Mr. Mapie and family, the last of the contingent, arriving today. All speak of the meeting as the most successful the society has ever held, the interest being greater than ever manifested before. It was a success also from a financial standpoint, the society now being in good condition.

More Cigarettes.

The cigarette was very much in evidence about central school building today at noon, but the youngsters were cute enough to stay a good distance away from the school. Seven boys puffed cigarettes, and all under the age required by law, were seen within a block of the building, while two others, old enough to smoke if they so desired, walked leisurely along the pavement.

Professor Gladding Here.

Professor Gladding, the gentleman who superintended the schools here several years ago, and was the last professor in charge before the old Fourth street building was demolished, is in town to witness the flag raising. The gentleman is now located at Le Roy, and very pleasantly situated.

A Successful Opening.

Charley Murphy, who lately opened a fine clothing establishment in Salem, is meeting with great success, and the opening the other evening was one of the greatest events in the history of Salem business. Thousands thronged the streets in the vicinity of the store and viewed the handsome appointments.

The Play Tonight.

The Warren company played to a good house at the Grand last evening, and the comedy scenes were well received. Tonight they play "Beyond the Rockies," a piece abounding in comedy and pathos. Every lady presenting a lady's ticket at the office will be admitted free when accompanied by one paid admission.

Good for the Girl.

The friends of one of the most popular and swiftest wheelmen in the city say today that he was coursing the streets of Wellsville last night astride of a tandem, and with him rode a young lady in bloomers, the first of their kind to be seen in town. They made a pretty picture and good time.

A New Professor.

The Ohio Valley Business College has recently added to its faculty Prof. E. R. Sebring, who will have charge of the penmanship and shorthand departments. Prof. Sebring is a highly recommended graduate in both branches, with several year's practical experience.

Steele Wants to Ride.

Rumor has it here today that J. F. Steele, the Lisbon crack, is anxious to ride under Liverpool's orange and blue at what few bicycle races remain this season. Steele is a speedy one, and would make a welcome addition to our racing team.

In New Business.

Rose & Dix, the enterprising circulation agents of the NEWS REVIEW, have purchased the business of James E. Orr, and are making a good start. The young men are hard workers, and will undoubtedly make the venture a complete success.

Too Much For Him.

Fred Furrow, a young man who rode a five mile bicycle race on Labor Day, has been so ill since that time that he can not work, being confined to his room. He rode too much for his strength.

CAYLOR'S BALL GOSSIP

Country Boys Make the Best Players on the Diamond.

KENNEDY AND YOUNG AS EXAMPLES

They Are Temperate and Easily Controlled, Like Most Farm Boys—Fighting to Get Into the First Division—Brooklyn's Great Spur—Pitcher McMahon's Recovery.

Young men from the farms and most of those whose boyhood has been spent in country towns and villages are almost invariably consumed with a desire to go to the large cities and make their homes amid the fascinating scenes of metropolis life.

There is one vocation in which, if the country boy gets a foothold, he need have no fears for his future enjoyment of city life and luxury. I refer to professional baseball playing of the first class.

The large majority of the successful ball players in the National league came originally from the farms or the rural towns. Good instances are found in Pitchers Young and Kennedy. Both have been nicknamed "Cyr" on account of their country nativity, and both are among the most successful of the leading pitchers of the country. Both are Ohioans and both have worked on the farm. At this closing period to the League race Kennedy is doing very nearly the best pitching in the country.

There is one advantage which most of these farm products of the diamond have over the players who hail from the larger towns or cities—they are invariably temperate and easily controlled.

Dr. R. V. Pierce, Buffalo, N. Y., *Dear Sir*:

I commenced taking your medicine I was very sickly. I had frequent spells of fainting, terrible pain in my head, and life was a burden to me. I attended one of the best physicians in our town, but with no good results. At last I resolved to try Dr. Pierce's Favorite Prescription, which I did, and after taking one bottle I felt greatly benefited. I would advise all ladies similarly afflicted to try "Favorite Prescription."

Mrs. JACOBS.

Yours truly,

Mrs. SAMUEL A. JACOBS.

G. A. R. DAYLIGHT SPECIAL

To National Encampment at Louisville Over Pennsylvania Lines.

On Monday, Sept. 9, G. A. R. veterans and friends from West Virginia, Southwestern Pennsylvania, Southeastern Ohio will go to the national encampment over the Pennsylvania lines, that route having been selected by a number of posts. Arrangements have been made for special trains to run through to Louisville by daylight, reaching there in time for supper on Monday. The organizations going on the specials will include: James A. Garfield and Lucy B. Hayes circles, Ladies of the G. A. R., of Wheeling, Spangler post, of Bellair; Brainerd post, of Bridgeport; Thoburn post, of Martin's Ferry; E. M. Stanton post, of Steubenville; General Lyon post, of Wellsville; G. W. Shuster post, of Toronto; J. S. McCready post, of Galt; Welch post, of Urichsville and Dennison; Minerva post, of Mineral Sandy Valley post, of Waynesburg; Andrew Crawford post, of New Philadelphia; John H. Carr post, of Port Washington; R. M. Lyon post, of Bowerston. The specials will converge at the Fair Handle at Steubenville, Newcomerstown and Cadiz junction, excursionists being carried from their starting points without change. Columbus will be reached at 11 a. m., from which point the specials will run through to Louisville on fast schedule without making any regular stops, going via Xenia, Dayton and Indianapolis. Leaving time from East Liverpool will be 5:30 a. m., central time, round trip \$8. Excursion tickets at that rate will also be sold for regular trains over the Pennsylvania lines Sept. 8, 9, 10 and 11. All tickets will be good running until Oct. 5, inclusive. A cordial invitation is extended to persons wishing to make an enjoyable trip to the National encampment to join the daylight special train on Sept. 9. The party will be a congenial one, and will be chaperoned by Mr. Fred B. Sander, traveling passenger agent, who will satisfactorily look after the comforts of all during the entire trip. Tickets can be obtained from Ticket Agent Adam Hill, East Liverpool, O., who will answer inquiries for further information on the subject.

The Baltimore's string of 14 straight victories is the consecutive game record of the year. It is all the more creditable because it was made against such clubs as the rich man from Lazarus after the books were balanced. New York and Chicago have hopes of crossing the divide and marching with the hosts of honor, whereas the Bostons, Pittsburghs and Philadelphia are casting furtive glances over their shoulders at the panting warriors on their trails. Pittsburgh and Boston are not meeting with that success from their teams which they hoped for.

The Baltimore's restoration is the sensation of the year in baseball. Nineteen of every twenty baseball players, including McMahon himself, believed that his arm was permanently injured. Yet since his return to the diamond—one year after he was disabled—he has not lost a game and has made it a favorite for the other side every time he pitched. Still I am told by teams which have faced him that he uses none of the great speed which formerly characterized his pitching. If that be true, it may mean that his arm, spite of its apparent recovery, is still in doubt, or it may mean that the wise, long headed owner does not intend to take any extra chances of injuring it again during the rest of this season. Every lover of baseball hopes that the great pitcher has come back to stay.

LIVE SPORTING NOTES.

Charles Dwyer, son of M. F. Dwyer, has begun business as a bookmaker.

M. F. Sweeney, the New York high jumper, recently made a new world's record of 6 feet 5 inches.

A number of American racing men anticipate visiting Athens next year and participating in the Olympic games.

The first prize of the famous Austral, for which Zimmerman has entered, has this year been fixed at \$1,000 cash.

George C. Strong, the national croquet champion, who recently defended his title with success, has thrice won the honor.

Tommy Connell is running in rare form and will doubtless give the distance men of the visiting English team a good argument.

Cabanne is said to be the cleverest boxer on the circuit, and he has never hesitated to put on the gloves with trainers or racing men who were looking for trouble.

The Defender has a yellow dog for a mascot. As the Defender's owners are cocksure she will win in a blow Sky terrier would have been more appropriate as a mascot.

Butterworth, Yale's full back, has been engaged to coach the University of California football team for its annual game with the Stanford university eleven, which will be coached by Walter Camp.

First class workmen, latest designs of type and improved machinery are essential features of the News Review Job Rooms.
